WHY CHOOSE PREempt™?

➤ **CLEANER** Effective disinfectant as well as a cleaner resulting in added confidence that disinfection can occur.

➤ **FASTER** Rapid and realistic contact times on a broad spectrum of difficult to kill pathogens.

➤ **RESPONSIBLE** Designed to be easier on surfaces, staff and occupants. Users are not exposed to VOCs (volatile organic compounds) and PPE** is not required as per HMIS rating.

➤ **SUSTAINABLE** The active ingredient, Hydrogen Peroxide, breaks down into water and oxygen leaving no active residual which helps to reduce environmental impact.

Accelerated Hydrogen Peroxide[®] (AHP[®]) is a patented synergistic blend of commonly used, safe ingredients that when combined with low levels of hydrogen peroxide dramatically increases its germicidal potency and cleaning performance without sacrificing user safety or environmental sustainability.

PREempt[™] products provide a unique balance between safety and efficacy addressing diverse variety of infection prevention and control needs. This includes environmental surface cleaning and disinfection, instrument cleaning and high level disinfection and sterilization.

SURFACE PRODUCTS

PREempt[™] Wipes

- For disinfection and cleaning of work stations, equipment, and other hard non-porous environmental surfaces.
- Made of low linting non-woven, meltblown polypropylene wipe material, ensuring even surface coverage and increasing the ability and efficiency of AHP[®] for fine particle removal.

PREempt[™] cleaners and disinfectants are based on patented Accelerated Hydrogen Peroxide[®] (AHP[®]) technology and were designed to have exceptional Cleaning Performance, Germicidal Efficacy, Health & Safety, and Environmental Sustainability.
