

PREempt PROTOCOLS

INFECTION CONTROL PROTOCOL - NON-CIRCULATING FOOTBATHS

PREempt
RTU

Cleaning & Disinfecting Stage (Between each client)

1. Take apart and remove jets and filters.
2. Clean parts, tub & chair with *PREempt RTU* Disinfectant spray (using paper towels) or *PREempt Wipes* or 30 seconds. Use scrubbing action.
3. Rinse parts and tub, and wipe dry.
4. Spray *PREempt RTU* or use other side of *PREempt Wipes* to wet surfaces of jets/filter, tub & chair. Wait 3 minutes for disinfection contact time.
5. Rinse and wipe dry, if necessary.
6. Replace jets and filter parts.

FOOTBATH IS NOW CLEAN & DISINFECTED

Display **TENT CARD** at work station.
